time, no moving parts**

Automated user guidance throughout maneuvers based on  
ATS/ERS standards 2019 and 2005

Quickly assess test quality with full color real time  
curves and instant interpretation

Data exchange via Bluetooth to the PC

Intuitive user guidance

Large color touch screen for easy data entry and navigation

Pediatric incentive via Bluetooth to EasyOne Connect

EasyOne Connect for seamless EMR integration

Rechargeable battery

**NDD TrueFlow**  
makes the difference

The original ultrasonic flow measurement is highly accurate in all flow ranges, independent of gas composition, pressure, temperature and humidity and does not require calibration during its lifetime. The sensor is never in direct contact with the patient's flow. NDD TrueFlow is a hygienic and resistance-free solution.

**NDD EasyConnect**  
intelligent interfacing

NDD's connectivity engine offers a comprehensive set of default configured HL7 and XML interfaces. With one database and one platform for all EasyOne point-of-care solutions, data management has never been easier.
